General Predictions Related to Native

General Characteristics :-

Your Ascendant falls in the Leo sign. This sign has been classified as a fiery, fixed or grave sign. Certain other natural qualitative characteristics have also been attributed to it: this sign is sterile and bestial by nature.

For being born in this Ascendant, you are likely to be endowed with an impressive appearance and firm disposition; your nature will be proud and fearless - rich in life and feeling. You will be ambitious - fond of pomp and magnanimity; but you will always resent any kind of clique and secrecy. You will be very rude towards your adversaries and will be determined to destroy them at any cost. You will be very courteous and generous as well; will remain ever optimistic, high-spirited, and oblivious to enmity. You will have unique adaptable quality and will easily mingle yourself with new / changed conditions. You will get success in your ventures easily and will achieve your goal. Your desired aspirations will be accomplished.

You will have a serious disposition, determined nature, and always believe in keeping promises and fulfilling commitments. You will be traditionalist and will have a firm believe in traditions and conventions. You will have a desire of living freely like a king. You will be authoritative and will command others. You will hate restrictions. For your majestic qualities, you will turn many heads and attract the attention of the people occupying authoritative positions. You will be faithful and kind-hearted, for which reason people in your circle will treat you with due respect. Your outlook towards life will be spiritual and philosophical. You will believe in God's existence and will have respect for him. You will not commit sinful acts. You will not be envious and malicious.

You will be nature loving and like to visit forest and hilly areas. You will have an inclination towards literature, music and art. Your attitude will be positive. You may have an intense desire to come to the fore; and for fulfilling your objective, you may work hard for acquiring some special abilities.

In your chart, the Moon is situated in sign Pisces; it is the negative sign ruled by the benign planet Jupiter - which is symbolized by a pair of fishes in opposite postures tied together. It is a common and watery sign, having a characteristic dual nature. Basically, you may have a dreamy nature, and possess the unique tendency of mixing up reality with imagination. With your extreme changefulness and inconstancies, you may really deserve to be branded as queer. You may often appear to be timid, but

all on a sudden may revert to being quite unyielding or obstinate - sometimes even audacious; for such tendencies, some people may not consider you to be very reliable or dependable either - for which you may lose some opportunities for advancement. At times you may be guided by fanatical enthusiasm - but you will soon be able to overcome it all by yourself.

You may have a highly passionate nature, and may have no regard at all for the possible consequences; but for this, you may face some troubles quite frequently, and lose sympathy or support of some of your friends and well wishing people. If you are engaged in some creative pursuit, then you will be fortunate to become successful in your endeavors. But if you are engaged in a rather common profession in a modest capacity, then you must curb all these unproductive tendencies, and come back to the real world - by placing your feet on the firm soil. This is for the simple reason that by pursuing fanciful risky projects, you can only render yourself vulnerable to meet with some sort of gross disappointment.

If Moon exerts benefic influence, you will follow a firm direction for putting in your efforts; obviously, you can then look forward to attaining a coveted position and success in all your endeavors. Dame fortune - with her sweet will - may decide as to when to favor you with her blessings of abundance and plenty; you are sure to rise to a dignified position by virtue of your merits and inherent qualities - at a fairly early age-period. But If Moon exerts malefic influence instead, then you are likely to have a shocking disappointment in a love affair; alternately, one of your children may become afflicted with some congenital defect. Besides, you may tend to suffer from morbid tendencies, misplaced sympathies, and even fanatical enthusiasm. Some secretly inimical false friends may try to create a series of troubles for you, and you may even run the risk of losing your credibility, honor, rank or status.

Physical Appearance :-

Your complexion will be reddish. You are likely to have an impressive physical structure. Your face is likely to be oval shaped and the forehead may be prominent. Your distinctive features will be your upright walk with a sunny cheerful disposition. With these, you will be the center of attraction wherever you go.

Qualities :-

You will have an artistic inclination and will be creative minded. You will have excellent
