

Notification about deletion of personal files

With regard to any Hewlett Packard Enterprise (HPE) owned resources used by you during the course of your employment, HPE reserves the right to access necessary business data stored on the company devices after the termination of your employment.

In order to protect your privacy, we request that you take the following actions in regard to your personal files (such as images, copies of ID cards, certificates etc.) prior to your last day of employment:

- 1) Delete any **personal** files stored on your HPE issued PC or Laptop hard drive (including Recycle Bin), your HPE issued cell phone (including messages on your voicemail), any network drives as well as any removable media devices.
- 2) Delete any **personal** files you have stored in O365 which includes Outlook (emails, contacts, deleted items folder and calendar items), OneDrive, OneNote, Teams, Viva (formerly Yammer), SharePoint or in Slack.

Do not delete any business-related data or files including any such files you may have created during your employment for work-related purposes.

NOTE: For instructions on how to delete personal files from the listed hard drives, network drives and applications, you may refer to this support article.

Any personal files remaining on HPE resources following your departure may be accessible to your people leader and IT. HPE's standard practice is to delete all data from HPE owned devices before they are re-assigned or recycled.

By acknowledging this document, you are confirming that you have deleted all your personal files from all HPE devices and applications. In the absence of an acknowledgement response before your last working day, HPE will deem that you have deleted your personal files from all HPE devices used by you during your employment.

Best Regards,

HPE Human Resources
